MARRIAGES

Wednesday afternoon at three o'clock March 3, Mr. Miles Minner and Miss Edna Clark of Tolu, drove up to Rev. W. T. Oakley's home and were united in marriage in the parlor in the presence of a few friends and acquaintances, in a few well chosen words. They left immediately for Tolu where they will reside. The groom is a sterling young farmer, who is highly connected and stands well in the community where he is known.

The bride was reared here and lived for several years with A. J. Bennett and wife and is a popular and deserving girl who has many friends here and especially in the church she attended, in which she was a good worker. Beside, being of a fine character and a good christian, she is a handsome girl and will make Mr. Minner a life partner worth having. The Crittenden Record-Press extends its congratulations and best wishes.

Corn And Pig Club at Oak Hall.

We, the members of the Oak Hall Boys' Corn and Pig Clubs, extend an invitation to the boys and girls of the neighboring district to become members of the jolly clubs at Oak Hall. If the applicant can comply with the requirements of the Clubs which requirements are between the ages of ten and eighteen. If you can't come send your name. If you can come, come Friday night, March 19th, at 7 o'clock. We are striving to get one hundred members at Oak Hall. Everybody come; it is free; get what is coming your way and be better farmers and farmerettes.—Everybody be a booster. DAVID POSTLEWEIGHT, Pres. Marion, Ky.

Mrs. Field Dead.

Golconda, Ill., March 8.—Mrs. Juliet Field, for 50 years proprietress of the Field House, one of the best known and most popular hotels in southern Illinois, died today at her home in this city.

A Revival.

A series of meetings began at the Church of God near the Col. on Saturday night last. Bros. Zimmerlin and Bennett are the ministers in charge, while Bro. Henchea and daughter are in charge of the singing. All are spirit filled people of God, and those wishing to hear the whole truth should attend services at 10: A. M. and 7: P. M. A hearty invitation extended to all.

May Advertise For A Partner.

"Does advertising pay in the Crittenden Record-Press?" was asked of that staid old bachelor, Robt. F. Wheeler. Well I should say so. I put an advertisement in a couple of weeks about my "Coffee by the Bushel" or one half bushel or peck, and in the first five days I sold 500 pounds, some of it going to Caldwell, some to Livingston and some to Union counties, but the greater part to Crittenden county. The people certainly read the Marion paper and what astonished me was the wide circulation your paper has. I have not had time yet but would not be surprised to get coffee orders from any state in the Union.

No Full Moon.

Here is a hit about the moon that is given out in time for every body to keep tab on it. February, 1915, passed without having a full moon, a thing that has not happened since 1866 and that will not happen again until 2,500,000 years from February. The moon in January was full on the 1st, and 30th. In March it will be full the 1st, and 31st, and that cuts off any possibility of February having a full moon. It is an odd combination of circumstances. If there is anything in signs, 1866 was a peace year after a big war.

COLDS

An up-to-date remedy for colds. That is what Peruna is. In successful use over 50 years.

Colds are caught in many ways: ills ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices ills heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

"For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled with the slightest cold this entire season." Mr. Harry Fisher, 1928 Mosher St., Baltimore, Md. "I give the children Peruna if they have a cold, and it always relieves them." Mrs. I. D. Hayes, 1937 Druid Hill Ave., Baltimore, Md. "When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles R. Many, 12 Water St., Ossining, N. Y. "No family should ever be without Peruna, for it is an unfailing cure for colds." Mrs. M. F. Jones, Burnside Springs, Ky.

GEN SHERMAN SAID:

"WAR IS HELL" WHO SAYS IT ISN'T?

Allies Cancel Order 10,000 Army Mules.

Because of the German submarine blockade of the British Isles, about fifty mules, which were brought to Henderson yesterday to be sold to the agent of a St. Louis firm for the Allies, were taken back and stabled at home. The agent received orders to buy no more mules although a sale had been advertised for several weeks.

The St. Louis firm had contracted to furnish France, England and Russia with 10,000 mules for army service and now there are 7,000 mules in the stock yards at St. Louis which cannot be sold, as a result of the blockade.

The Allies had placed a number of contracts in the United States and the contractors had sub-let these contracts. Dangers to shipping caused the Allies to cancel all orders for mules on this side. — Henderson Gleaner.

Irrigate Your Neighborhood

By HERBERT KAUFMAN

Author of "Do Something! Be Something!"

HALF a century ago there were ten million acres of land, within half a thousand miles of Omaha, upon which not even a blade of grass would grow. Today upon these very deserts are wonderful orchards and tremendous wheatfields. The soil itself was full of possibilities. What the land needed was water. In time there came farmers who knew that they could not expect the streams to come to them, and so they dug ditches and led the water to their properties from the surrounding rivers and lakes; they tilled the earth with their brains as well as their plows—they became rich through irrigation.

Advertising has made thousands of men rich, just because they recognized the possibilities of utilizing the newspapers to bring streams of buyers into neighborhoods that could be made busy locations by irrigation—by drawing people from other sections.

The successful retailer is the man who keeps the stream of purchasers coming his way. It isn't the spot itself that makes the store pay—it's the man who makes the spot pay. Centers of trade are not selected by the public—they are created by the force which controls the public—the newspapers.

New neighborhoods for business are being constantly built up by men who have located themselves in streets which they have changed from deserted by-ways into teeming, jostling thoroughfares, through advertising irrigation.

The storekeeper who whines that his neighborhood holds him back is squinting at the truth—he is hurting the neighborhood.

If it lacks streams of buyers, he can easily enough secure them by reaching out through the columns of the daily and inducing people from other sections to come to him. Every time he influences a customer of a competitor he is not only irrigating his own field but is diverting the streams upon which a non-advertising merchant depends for existence. Men and women who live next door to a shop that does not plead for their custom will eventually be drawn to an establishment miles away.

The circulation of every newspaper is nothing less than a reservoir of buyers, from which shoppers stream in the direction that promises the most value for the least money.

The magic development of the desert lands has its parallel in merchandising of the men who consider the newspaper an irrigating power which can make two customers grow where one grew before.

Arousing Much Interest.

Reports from Western Kentucky are that the contest for the Democratic nomination for Appellate Judge in the First district is developing into a real "hoss race." The triangular fight is between Judge Clem Nunn, of Marion, Crittenden county, the incumbent; Judge J. Flem Gordon, of Madisonville, and Judge Gus Thomas, of Mayfield. Old timers are saying that the warmth being shown this early in the contest presages one of the liveliest political scrimmages ever "pulled off" in that "neck o' the woods."—W. S. A Draft—You Catch Cold—Then Follows

Coughs, Cold Stiff Neck Neuralgia

Especially in the piercing pain of neuralgia or the dull throb of headache is Sloan's Liniment wonderfully relieving. Laid lightly on the part where the pain is felt, it gives at once a feeling of comfort and ease that is most welcome to the overwrought sufferer.

Hear What Others Say:

"There are no Liniments that equal Sloan's. My husband has neuralgia very often, he rubs Sloan's on his face and that is the last of it."—Mrs. V. J. Brown, Reno, 1, Box 121, Idaho, Tenn.

"I have used Sloan's Liniment for family use for years and would not be without it. We have raised a family of ten children and have used it for croup and all lung trouble; also, as an antiseptic for wounds, of which children have a great many, it can't be lost. My wife sprained her ankle last summer and it was in bad shape. Sloan's Liniment applied enabled her to be as good as ever in a week. I have used it several times for sprains and rheumatism."—John Newcomb, R. R. No. 2, Kokuk, Iowa.

SLOAN'S LINIMENT

It works like magic, relieving Lumbago, Rheumatism, Sprains and Bruises. No rubbing—just lay it on. Price 25c. All dealers. Send four cents in stamps for TRIAL BOTTLE. Sent to any address in the U.S.

The tobacco buyers are as thick as candidates before a primary, but on account of the excessive ocean rate, which as a matter of fact is paid at the other end of the line, and taking into consideration the fact that the last two crops were short ones, and that the last crop was of unusual good quality, they are not offering anywhere near the worth of it.—BROM BONES.

The Crittenden Record-Press is au-
thorized to announce
JUDGE C. S. NUNN
of Marion, Ky., as a candidate for the
Democratic nomination for Judge of
the Court of Appeals, from the First
Appellate District of Kentucky.

Elsewhere in these columns
Col. George N. McGrew, of the
Bayou, a member of the state
board of agriculture, and vice

president of Farmers' Institute
of the state, announces for the
legislature, to represent Living-
ston and Crittenden counties.
He is an able man and will make
a good legislator.

The New York World of March
5th truly says:

On the fiftieth anniversary of
Lincoln's second inaugural,
Woodrow Wilson completes half
his Presidential term.

These two years of the Wilson
Administration must inevitably
be the most momentous period
that this country has known since
the Civil War.

It is a fact of enormous impor-
tance that this crisis finds in the
White House a President who is
completely master of himself.
Being master of himself, he is
master of his party and of his
Administration.

There is no kitchen cabinet.
There are no back-stairs advisers.
There are no secret influences that
pull and sway the policies of the
Executive. No underground
wires run from the White House
into Wall Street or into the head-
quarters of any political commit-
tee. Men may agree with Mr.
Wilson or disagree with him;
they may like him or they may
dislike him; but everybody knows
that he and he alone is President.
Everybody knows that during
the remaining two years of his
term he and he alone will be
President.

A very unusual man, meet to
cope with a very unusual situa-
tion in the affairs of mankind—a
President who in all his official
relations displays neither vanity
nor resentment, nor anger, nor
personal ambition. If he has
friends, their friendship counts
for nothing in the affairs of state.
If he has enemies, their enmity
weighs nothing in the balance of
government. He seeks neither
to reward the one nor to punish
the other.

So evenly does he hold the scales
that the members of the Diplo-
matic Corps, with all their
highly developed facilities for
obtaining information, have never
been able to learn where the
President's personal sympathies
lie in the great conflict that is
now devastating Europe. What-

ever his individual opinions may
be, he has smothered them in
the responsibilities of his office.

At this period in their first
term most Presidents have been
calculating their chances of re-
nomination and re-election. No-
body knows whether Mr. Wilson
intends to be a candidate for re-
election or not. Not a member
of the Cabinet, not a member of
congress, can say of his own
knowledge that the President de-
sires a re-election or that he
would not refuse a renomination.
What all of them know is that
the President would not stoop
from principle to win either a
re-nomination or a re-election.

That is where his great streng-
th lies. That is where his great
usefulness is, in this crisis. It is
easy to rattle the sabre. It is
easy to make the welkin ring. It
is easy to be spectacular and sen-
sational and theatrical. It is easy
to be a demagogue. It is easy
to juggle with the fate of a Na-
tion when no man can foresee
what the next day will bring forth.
But it is not easy to be calm
and restrained and judicial. It
is not easy to face every respon-
sibility without prejudice and
without passion. It is not easy
to hew straight to the line of
first principles, regardless of ap-
plause or censure or praise or de-
nunciation. It is not easy to be
sane when the world has given
itself over to madness.

The enormous good fortune of
the people of the United States
in the storm and stress of these
coming years is that their Chief
Magistrate is sane—the sanest
mind today that is intrusted with
the responsibilities of govern-
ment anywhere in civilization.

WHY, WHEN AND HOW JESUS' SECOND ADVENT

Billy Sunday's View Later Than
"Orthodoxy's."

Bible Views Long Buried Now Coming to Light—Erroneous Teachings of the Creeds—Reasonableness of Bible's Presentation—Instead of World-Burning, Messiah's Kingdom Will Bring World-Wide Blessing—Anarchy Destructive as Fire Will Prepare Way.

PASTOR RUSSELL

though Billy's teachings do not come up to the Bible, nevertheless he is far ahead of "Orthodoxy" on this subject.

The Pastor agrees with Mr. Sunday in teaching that our Lord Jesus is coming to establish a world-wide Empire which will bless all mankind with fullest opportunity to do right. But he disagrees with Mr. Sunday's theory that the billions who died during the past six thousand years in ignorance of Christ will suffer to all eternity because of that ignorance. Those billions include all who have ever truly heard of Jesus, in heathen lands and at home where, according to Mr. Sunday, some were led straight down to Hell by the churches.

The Bible thought, the speaker declared, is altogether different—that the dead are in neither Purgatory nor a fiery Hell, but in the Bible Hell—the tomb; and that "all that are in their graves shall hear the voice of the Son of God and come forth." The saintly will come forth to glory with Christ in His Kingdom; others, to a resurrection—a raising up out of sin and death—by judgment.—John 5:28, 29. R. V.

Those who have not intelligently heard of Jesus and His salvation are not on trial now. Their death is the penalty of Adam's sin, not of personal rejection of Jesus. It is to give these the opportunity of a judgment, trial, during Christ's Millennial Reign that they will be brought from the tomb. As all died through one man's disobedience, all will come forth to an opportunity of everlasting life through the obedience of the other man—Christ. The resurrection of the dead is their only hope. (Acts 24:15.) In view of this the whole world are said to "Sleep with their fathers."

"Orthodoxy" Is Still Worse.

The speaker then showed that those styling themselves "Orthodox" are still further astray from the Bible. "Orthodoxy" declares that there will be no Millennium—no hope for any except the Elect few; that Jesus is coming to burn up the earth and its inhabitants. He quoted many Scriptures to refute this teaching. Both Catholic and Protestant creeds declare that at Christ's Second Coming the earth and its inhabitants will be consumed with literal fire. This leads to a literal interpretation of St. Peter's symbolic statements portraying the fire of anarchy which will destroy our institutions, making way for the Kingdom.

They fall into this error because of another formed during the Dark Ages; namely, that the only kingdom of God the world will see will be such as it is now enjoying, while the various so-called kingdoms of God are butchered each other. Each tries to justify its own selfish course, and all unite in saying that the civilized nations are Christendom—Christ's Kingdom.

This theory dates from 800 A.D., since which time Catholics claim that the Church is reigning with Christ, the Pope serving as the world's king—vicegerent, or instead of Messiah. Protestants generally, refusing the Pope as Christ's vicegerent, are much confused when they attempt to explain the Kingdom for which they pray, "Thy Kingdom come," and the references to its lasting 1,000 years.

What Troubles Honest Preachers.

There are ministers who believe the Bible, yet are skeptical respecting Messiah's Kingdom. Properly enough they argue that if for eighteen centuries Jesus has been a Spirit Being at the Father's right hand, it would be a retrogression for Him to return and sit on a gold and ivory throne.

These ministers have slipped a few eggs in the Divine Plan of the Ages, the Pastor holds. What they need to note in the Bible is that only Christ and His Church are promised a share in the Heavenly blessings—that the Divine arrangement for the world is an earthly Paradise and human perfection in the Divine likeness; that the Church will constitute an inevitable spiritual Kingdom, backed by Infinite Wisdom and Power; and that the Ancient Worthies, from Abel to John the Baptist, will be resurrected perfect human beings, and made "princes in all the earth"—representatives of that spiritual Kingdom.

We cannot here discuss fully how Christ comes as a thief, but we offer free of charge a booklet which we have written with a view to making the matter very clear. Whoever will address me—Pastor Russell, Brooklyn, N. Y.—requesting a copy of Parousia Booklet—will receive a copy free.

We see that it is time to renew our subscription to your old Kentucky home paper, the Record-Press, which we so highly prize, and feel that we cannot do without. Enclosed send \$1.00 for which please send it until Feb. 1916. We left Kentucky March 9, 1907 and reached Toppenish March 29. We found plenty of kind Kentucky friends to meet us and bid us a hearty welcome. Washington is a beautiful place, we live 30 miles from any Kentucky people, but we have good friends and neighbors. The weather is fine here now and the farmers are busy pruning and getting ready for the water which will be turned in the first of April. Our little home is on the banks of the Yakima river, four miles from Prosser. We missed the Press last week but look forward to getting it Monday for that is the day we receive it. Awaiting your early reply, I remain your steady subscriber.

French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieve stomach and intestinal ailments and keep the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Indigestion and gastritis vanish.

Mr. Geo. H. Mayr, a leading druggist of Chicago, cured himself with this remedy in a short time. The demand is so great that he imports these oils from France and compounds them under the name of Mayr's Wonderful Remedy. People everywhere write and testify to the marvelous relief they have received using this remedy—one dose will rid the body of poisonous accretions that have accumulated for years and convince the most chronic sufferer from stomach, liver or intestinal troubles.

Mayr's Wonderful Remedy is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

NEW REVOLUTION

Catawba Valley, N. C. Had
a Peaceful But Powerful
Awakening

STARTED WITH \$1,500 NOTE

Buckwheat Valley, Wisconsin, Becomes Prosperous Through Co-operation—What the Conference To Be Held in Louisville Really Is For.

A program built with experts from the various departments of the State and National Government, is naturally quite an easy matter. To go out over the country and find people who are really doing things in their own communities, is quite another proposition. This has been the task which the men who are handling the Conference for Farmers and Business Men have set for themselves this year.

Walter J. Shuford, North Carolina.

One of the most interesting men of this type in the whole United States is Walter J. Shuford, of Hickory, N. C. He is one of those men who evidently dreams wonderful dreams, then rolls up his sleeves and works hard to make those same dreams come true. Way down in North Carolina Mr. Shuford saw how his friends and neighbors were limping through life on a worn-out soil that would not seem to supply their wants. At last he found the man he needed in Field Agent Conover, and they began work to interest a group of men in a dairy proposition.

From a start that was made with a \$1,500 joint promissory note with which to finance the creamery, it has grown year after year until last October, the total sales amounted to over \$10,000. And it seems from the way in which things are growing that their co-operative organization will soon be handling a business that will total about \$500,000 a year.

One might write volumes about what has happened down in Catawba Valley in that Tarheel country, but it is enough to say that this man has changed the attitude and viewpoint of a county through his own enthusiasm. He will be in Louisville during the Conference, April 7-8-9-10, to tell his own story and to demonstrate the methods that he used to organize and develop this tremendous business.

FAT OF THE LAND

Seven years ago Buck Wheat Valley in Wisconsin was almost bankrupt. Two-thirds of her property was held in mortgages and the young people were drifting toward the city. Wheat, which in the early days had yielded 50 bushels to the acre, had dwindled to 15, and it was because of this that the people had to substitute buck wheat, hence the name of the Valley.

Seven years ago Mr. William Head and Mr. Grover began organizing the people about the LaValle for developing the creamery work and standardizing the potato crop. Today there is hardly a mortgage in this neighborhood, the homes are painted, new barns are being built, silos stand as sentinels all over the country. Mr. Head and Mr. Grover will be in Louisville April 7-8-9-10, to tell how they lifted Buck Wheat Valley out of bankruptcy into plenty.

A GETTING TOGETHER

The seventeenth annual Conference of Farmers and Business Men which is to meet in Louisville, April 7-8-9-10, is a rather unique organization. It has absolutely no constitution or by-laws, no dues or conditions of membership. It is a loosely put together organization, which can easily shift its viewpoint or change its policy with the growth and temper of the people making up the membership for that particular year. It began its existence under the Southern Educational Board, which pays all the bills, and its President for sixteen years was that remarkable merchant of New York City, Mr. R. C. Ogden. He was one of those unusual men who can see not only the future in his own business, but also the future in other lines of activity. It has been the policy of this movement not to dictate what any meeting should do, but merely to help the groups that "get together" to find themselves and solve their own problems.

BROOKLYN TABERNACLE

BIBLE STUDY ON

THE FAITHFUL ARE WATCHFUL.

Luke 12:35-48—March 8.

"Blessed are those servants, whom the Lord when He cometh shall find watching."

TODAY'S lesson opens with a parable. If, in a great house, the master were about to bring home his bride, the servants would on that particular night be especially active, watchful, on the alert to hear his knock and open instantly. So Jesus' followers should be on the alert for His Second Coming.

The thought is that followers of Jesus should take their ideals of alertness from the extreme experience of earthly service. Jesus intimated that they might look for Him sooner than He would come.

saying that if He shall come in the second or the third watch or whenever, blessed are those servants found ready to receive Him.

Our Lord's Parousia is described in today's lesson. His earliest manifestations of His Second Advent. The world will neither see Him nor know of His presence; and His Church will know of His presence only by His "knock"—the fulfillment of prophecy. It will then be for the watchful ones to recognize this fulfillment, and promptly to acknowledge the Master's presence.

For such as receive Him He will make a feast. Out of the Divine Word He will bring things new and old, for refreshment and comfort. The Bible will become to them a new Book. Many Bible students believe that we are living in this very time; and that each faithful follower of Jesus will be granted the privilege to participate in this feast, which many tell us they are now enjoying.

The Great Teacher then intimates that Satan is master of the present order of earthly things; and that at His Second Coming Jesus will bind this strong man, overturn present institutions and establish the long-promised Reign of Righteousness. This thorough transition will cause the great Time of Trouble mentioned throughout the Bible as closing this Gospel Age.—Daniel 12:1; Mark 13:8; Matthew 24:21.

Jesus speaks of His Second Coming as thieflike. The thought is that He will be present for a time, unobserved by the world, known only to the Bride class, whom He will remove—changing them from earthly nature to Heavenly. Verse 40 instructs all the Lord's faithful followers to be ready for His presence, to render up their accounts and experience their change.

"To Give Them Their Portion."

St. Peter was perplexed. Was this parable for the Apostles or for all? The Lord did not answer him directly, but merely assured him that at the appropriate time the Lord would appoint a steward over His Household, to give them food in due season. This is not very different from the Lord's usual method of dealing with His family.

For instance, St. Peter apparently was a leader amongst the Apostles, in opening the Pentecostal door, and later in opening the door to the Gentiles—preaching to Cornelius, the first Gentile convert. Later on, the Lord seems to have chosen St. Paul to be His particular messenger to the Gentiles (Acts 9:15). Similarly Enoch, Abraham, Moses, the Prophets, and others during this Gospel Age, seem to have been especially used of the Lord to draw His people's attention to His Word. The Apostles, of course, had a special inspiration which does not pertain to others of this Age since.

The servant at the end of the Age, if faithful, would be especially blessed, and given general charge respecting the spiritual food for the Lord's family—"meat in due season." But if he should prove unfaithful, fail to recognize the Master's presence and manifest an unkind spirit toward the Household, he would go into outer darkness with the world, in utter ignorance of the times and seasons, etc., of his Lord.

The Lord then explained a general principle of His dealings; namely, that any servant, knowing his Master's will and not doing in harmony therewith, would receive stripes, punishments, tribulations, proportionate to his knowledge and opportunity. But any servant who ignorantly did things worthy of stripes would receive proportionately fewer stripes. "To whom much is given, of him much is required."

Our Golden Text.

The heart of this lesson is found in Verse 37. Those servants who in the earliest stages of their Lord's Second Coming, the time of His Parousia, His presence, shall be found faithfully watching, will be informed respecting the time, as the Apostle points out.—1 Thessalonians 5:1-8.

The secrecy respecting the time and the manner of Jesus' Second Coming will be a strong test. All overcharged with the cares of this life—business, pleasure, etc.—will be slow to hear the "knock," and too much engrossed to give proper heed. "Watch ye therefore!"

DENYING THE SON OF GOD--PUTTING DARKNESS FOR LIGHT

Billy Sunday Challenged—Does He Deny That Jesus is the Son of God?

Darkness Masquerades as Light—Foolish Words Mislead the Ignorant. Christians Often "Babes in Christ." Few Have "Their Senses Exercised by Reason of Use"—What Say the Scriptures? Not, What Say the Preachers, Evangelists and Creeds?

New York, March 7.—Pastor Russell, at New York City Temple, took for his text today John 1:14, "I saw and bear record that this is the Son of God." He declared that about three-fourths of the preachers are his enemies. Because they cannot resist the force of his Bible teachings, they misrepresent them and vilify his reputation, that thus they may hinder good people from hearing and reading. "By their fruits ye shall know them," and these wicked fruits indicate that many clergymen must be in a seriously wrong condition of heart, else they would not bear these distinctions, and many fruits—"works of the flesh and of the Devil."

Denying the Son of God.

Billy Sunday has joined other preachers in the slanderous misstatement that Pastor Russell denies that Jesus is the Son of God. How foolish it is for them to make such deliberate misstatements in our day, when eventually their falsehoods will be found out! People realize that only desperation, attempting to support a weak cause, could lead a professed minister of the Truth thus to do violence.

The Pastor declared that really it is he who believes that Jesus is the Son of God; but that the great majority of preachers and evangelists do not clearly so teach; that they confuse their argument and bewilder their hearers by telling in one breath that Jesus is the Son of God and in the next breath that He is His own Father. According to them, Jesus is Jehovah, who sent His Son into the world to die, and He is the Son, who sent Himself, as the Father; when He prayed to the Father it was mockery; for He was the Father—"one in person."

When He said, "My Father is greater than I," He misrepresented facts, according to those preachers and creed-makers. He spoke of the Cup which His Father had poured for Him, of how He could do nothing of Himself, of how He would return to the Father; He prayed, "My God! Why hast Thou forsaken Me?" and He said to Mary, "I have not yet ascended to My Father and your Father, My God and your God." But these wise-then-the-Bible teachers contradict Him, and feel like saying, "Jesus must have been a Millennial Dancer! But We know better than He did!"

Such teachers, he asserted, make void the Word of God through their traditions. In claiming that Jesus is Jehovah, the Father, they really deny that He is the Son of God; for common sense tells everybody that a son proceeds from, receives his life from the father. This is exactly what the Bible tells us in respect to Jesus.

Truthful Criticisms Invited.

The Pastor invites truthful criticism of his teachings; but his opponents know that to treat him fairly would be to turn all thinking people to his side—the Bible side. For thirty years they ignored him, lest people should find out; but as his sermons now reach millions, preachers are alarmed for the safety of their misty creeds, and resort to falsehoods, misrepresentations and slanders—the weapons of moral cowardice, who realize their weakness.

If they charged him with disbelieving in the doctrine of the Trinity, that three ones are one, he would cheerfully admit, and point them to the fact that the word Trinity is not found in the Bible, and that the thought of a Trinity is not there, except in one passage which all scholars of all denominations admit to be a forgery. See 1 John 5:7, 8, Revised Version.

The Pastor believes in the Heavenly Father, Jehovah God; in the Heavenly Son, our Lord Jesus Christ, who left the Heavenly nature, took the human nature, died for our sins, and was afterward highly exalted to the Divine nature; in the Holy Spirit, the Spirit of Truth, the Spirit of God, the Spirit of Christ, the Spirit of all who are on God's side. His crime, he declared, is that he does not believe that the Father, the Son and the Holy Spirit are "one in person, equal in power and glory," neither one existing before the other, neither one the Son and neither one the Father, really. The Bible, he asserted, says nothing of this kind, and he is glad that his head is not so illogical as to lead him to deny the Bible and common sense for the sake of being in harmony with creeds made in the Dark Ages.

The remainder of the discourse was devoted to a thorough discussion of every text in the Bible relating to the subject.

PHILANTHROPIST IS IN LEXINGTON

His Theories on Human Ills and Their Correction Win Him Fame.

Lexington, March 10.

L. T. Cooper, the millionaire philanthropist, who has been so widely discussed throughout the East, is in Lexington, a guest of the Phoenix Hotel. Mr. Cooper came to Kentucky from New York, where he spent the past nine months meeting the public and explaining his views on health and hygiene. Mr. Cooper is a man of rare talents, magnetic force and charm of manner. He never ceases to surprise you with the infinite variety of his knowledge and its absolute correctness and thoroughness.

Mr. Cooper claims chiefly that most of the ill health of today is due almost entirely to those habits which best distinguish the white man from the jungle. He says that nine times out of ten it is the result, more or less, of a weakened, out-of-order stomach, and that nine times out of ten these disorders are due to too much eating and drinking, or our careless method of living.

But it is always possible, he says, to make some effort toward healthful living, and in connection with his lectures he is introducing his famous medicine Tanlac to prove his theories.

Tanlac is called the magic medicine and is made mainly from the medicinal properties of a plant discovered during the researches of Cooper's uncle, the renowned scientist, on an island in the Pacific ocean, west of Mexico.

Compounded in Cooper's great laboratory, even as mysteriously as famous mineral waters are formed, the science of man, the chemist's skill and acquired medical lore, are set at defiance by Tanlac so far as imitation is concerned. Tanlac, it is claimed, quickly overcomes stomach, kidney and intestinal ailments, and will actually prolong life restoring and keeping up the vigor of youth.

In New York, Boston and Philadelphia, as well as in Lexington, thousands have been converted to Cooper's theories and have been benefited by his marvelous medicine.

Mr. Cooper is something of a philanthropist, as he contributes a large proportion of his income annually to charity and suffering people.

Mr. Cooper gives the agency for his medicine to one drug store in each city. J. H. Orme has awarded the exclusive of Tanlac in Marion and the remarkable medicine can be obtained at that store.

TOM RHEA COMES OUT FOR AUDITOR

Seeks Nomination on "Strong and Worthy" Democratic Ticket.

RECORD AS ASSESSING OFFICER

Is Reviewed in Refuting Reckless Charges of Favoritism Toward Big Corporate Interests Made by Owsley Stanley—Will Not Enter Into Controversy With His Detractor—Points With Pride to Manner in Which Present Administration of Treasurer's Office Has Overcome Deficit Inherited From Republican Predecessor.

Thomas S. Rhea of Logan county, present state treasurer of Kentucky and late chairman of the Democratic state campaign committee, today makes announcement of his candidacy for his party's nomination, in the August primary election, for the office of auditor of public accounts. In entering the race Mr. Rhea presents to the voters a brief review of his course as a member of the state board of valuation and assessment, the franchise tax board of the state, showing that that body has by unanimous action materially increased the assessment of all the large public service corporations, refuting the reckless charges made by Congressman Owsley Stanley that the board had been influenced in behalf of the corporations.

Mr. Rhea also reviews his course in the management of the state's

ship upon any legitimate industry. This board, with my active assistance, in the last three years, has increased the franchise valuations upon all the corporations of the state from \$1,000,000 to \$132,000,000; and four of the largest railroad companies, whose assessments were raised, have enjoined the collection and carried the question into the federal courts, where the cases are now pending for a decision. The favorable settlement of these cases in the courts together with the large increases from other corporations which are not contested, means a great boon to the taxpayers and a most valuable increase in our revenues. In the four years of the present administration the increase of revenues from the assessments of those corporations, which have not contested increases, will amount to a sum to the state far in excess of \$1,000,000; and the increase of revenues from the same source in the counties, cities, towns and school districts of the state will amount to about \$2,000,000 for the same period. Should the courts sustain the action of the board in the raises made upon the four railroad companies I have referred to, it would add about \$1,000,000 more revenue to the state and about \$2,000,000 more to the counties, cities, towns and school districts in the same four years.

Explains Single Attack.

Notwithstanding my well known record upon the board in these matters and my efforts to serve the best interests of the people by placing a larger and a just burden of taxation upon the corporations, one man alone in all the state has undertaken to criticize me about the work of the board, and to reflect upon my conduct in connection with it. Mr. A. O. Stanley, some time ago, in announcing himself as a candidate for the nomination for governor, with his usual disregard for the truth, made an attack upon me and sought to create the impression that the corporations had been too favorably treated by the board, and that I and other gentlemen he mentioned had in some way been responsible for it. The record and the facts completely disprove his insinuations or charges, and show that no franchise board in the history of Kentucky ever made such large increases in the assessments of corporations. Mr. Stanley can hardly plead ignorance of these facts, because they have been discussed in the press and the courts of the state a great deal in the last two or three years. I am not a candidate for the governorship, and I am not seeking, nor do I propose to descend into a controversy with him and would not now mention him except for his wanton attack upon me. The people of Kentucky have learned to know him as a man utterly reckless and unreliable in his statements or in his charges against other men. The only criticisms that have ever been made about the work of this board have come from those who have complained that we have raised the

THOMAS S. RHEA OF LOGAN COUNTY, KENTUCKY.

financial department, the treasurer's office, declaring that the present administration has well handled a difficult financial condition left to it by the last Republican administration. His card of announcement follows:

To the Democrats of Kentucky:

On the first Saturday of next August the Democrats of Kentucky will nominate their candidates for state officers, and make up their ticket to be submitted to the voters in the November election. In that primary I shall be a candidate for the Democratic nomination for the office of auditor of public accounts; and in making this announcement, I trust that my fellow Democrats will give to my candidacy their serious and favorable consideration. I shall endeavor to be very brief in what I say in this announcement, and shall rely upon the fair and discriminating intelligence of the people for what support I may receive.

I hope I may be pardoned for calling attention briefly to my experience as an officeholder. As sheriff of my native county of Logan, and then for the last three years and more as treasurer of Kentucky, I have tried faithfully and earnestly to so perform the duties of office as to justify the confidence of the people who so honored me.

Member of Important Boards.

As state treasurer I have been, according to law, a member of the important governing boards of the state, the banking fund board, the printing board, the capitol board and the board of valuation and assessment. This latter board is one of especial importance and consists of only three members, the auditor, the treasurer, and the secretary of state. It deals with the important question of fixing the franchise valuations upon all corporations doing business in this state, for purposes of taxation. The record made by the present board in the last three years has been remarkable and unprecedented. The board has not sought to hinder or cripple legitimate corporate industries of the state; but it has so increased their franchise assessments that the state is now receiving several hundred thousands of dollars more in taxes every year from this source than it ever received before. As a member of the board I have helped diligently in the work of adjusting these matters in accordance with the best interests of the people and without causing unjust hard-

assessments upon corporations too high. I shall gladly stand upon the record of that board and upon my part in its work.

In the campaign last fall I was selected without opposition by the party leaders and the state committee as the Democratic campaign chairman for the state, and we succeeded in carrying the state for the Democratic ticket by the largest majority in a general election for thirty years. I do not wish to claim the credit for that splendid result, but as campaign chairman I save all of my time and service to help in bringing it about.

Inherited Large Debt.

The present state administration, of which I am a member, inherited a large debt and a disordered condition of finances from the preceding Republican administration; and that inheritance, together with the increased demands upon our revenue for educational purposes, for Confederate pensions, and for other worthy causes, has imposed upon us a difficult situation to deal with, and one that has tried our best efforts and energies. As head of the treasury department of the state, I believe I may say without boasting, that the affairs under these difficulties have been conducted in a business-like and successful manner; that the revenues of the state have been properly guarded, and creditors have not been inconvenienced or disappointed. I believe the work of this administration, regardless of hostile criticism, will, when impartially and fairly measured, commend itself to the good opinion of fair-minded people.

It is not my desire to be on the Democratic ticket as its candidate for auditor and to serve in that office for the next four years. The experience I have had as treasurer, and in such close connection with the office of auditor, should enable me to render efficient and valuable service in the position.

I, therefore, ask the Democrats of Kentucky for their support in the August primary; and I ask that they place me upon a Democratic ticket so strong and worthy that it will deserve and receive the support of the good people of Kentucky in the November election. As the people of our state in the election this year show their appreciation of the splendid and incomparable administration of President Wilson, and demonstrate that Kentucky, in the presidential election next year, will be ready to show its purpose to help in the work of electing a president who has done such extraordinary service to the people of this country.

Respectfully,
THOMAS S. RHEA.

Slight Symptoms Sometimes Presage Serious Results.

Don't you feel tired, have you a low complexion, constipation, headache, bad breath, sleeplessness or circles around your eyes? If so, you are undoubtedly suffering from liver complaint.

Perhaps you don't feel very badly now, but delay is dangerous. To allow your liver to continue out of order, is to invite a serious chronic illness.

Whenever you have the slightest symptoms of liver trouble, stop it immediately. You can do it harmlessly and mildly by taking LIV-VER-LAX, the natural vegetable compound that is replacing calomel everywhere. It has all the effectiveness, not the effect of calomel. Insist on getting the original LIV-VER-LAX, bearing the likeness and signature of L. K. Grigsby, which is guaranteed to give satisfaction or money refunded. For sale by Haynes & Taylor, Marion, Ky.

For the benefit of the nervous cases that come to the doctor, it has been asserted by Scripture that it is just as necessary to know how emotional they are as it is to know how high the temperature is in case of fever, says Harper's Magazine. Moreover, in many cases it is necessary to find out what experiences in the past or present life of the patient produced conditions. For this purpose the patient sits at ease with hands on the electrodes, which may be so concealed in the arms of his chair that he is unaware that the most intimate processes of his soul are being registered as various words are spoken or various topics of conversation are discussed, the galvanometer showing when a sensitive subject has been touched.

Among the American peasants the old patriarchal system prevails. The entire family of a score or two of people of several generations lives beneath a single roof, says the Christian Herald. Together both men and women till the fields in a primitive manner, and when the grain is ripe, they take a sheep to the roadside that the passing stranger may give a present and thus bless the crop. Their houses are of stone roughly laid, or of mud, or frequently they are half underground, and from a distance their dome-like roofs resemble the mound of a prairie dog settlement.

THE CHURCH AS A SOCIAL CENTER

A Broader Sphere for Religion—New Field for the Rural Church.

By Peter Radford

Lecturer National Farmers' Union

The social duty of the rural church is as much a part of its obligations as its spiritual side. In expressing its social interest, the modern rural church does not hesitate to claim that it is expressing a true religious instinct and the old-time idea that the social instincts should be starved while the spiritual nature was overfed with solid theological food, is fast giving way to a broader interpretation of the functions of true religion. We take our place in the succession of those who have sought to make the world a fit habitation for the children of man when we seek to study and understand the social duty of the rural church. The true christian religion is essentially social—its tenets of faith being love and brotherhood and fellowship. While following after righteousness, the church must challenge and seek to reform that social order in which moral life is expressed. While cherishing ideals of service, the rural church which attains the fullest measure of success is that which enriches as many lives as it can touch, and in no way can the church come in as close contact with its members as through the avenue of social functions.

The country town and the rural community need a social center. The church need offer no apology for its ambition to fill this need in the community, if an understanding of its mission brings this purpose into clear consciousness. The structure of a rural community is exceedingly complex; it contains many social groups, each of which has its own center, but there are many localities which have but one church and although such a church cannot command the interest of all the people, it is relieved from the embarrassment of religiously divided communities.

Social Needs Imperative.

The average country boy and girl have very little opportunity for real enjoyment, and have, as a rule, a vague conception of the meaning of pleasure and recreation. It is to fill this void in the lives of country youth that the rural church has risen to the necessity of providing entertainment, as well as instruction, to its membership among the young. The children and young people of the church should meet when religion is not even mentioned. It has been found safest for them to meet frequently under the direction and care of the church. To send them into the world with no social training exposes them to grave perils and to try to keep them out of the world with no social privileges is sheer folly. There is a social nature to both old and young, but the social requirements of the young are imperative. The church must provide directly or indirectly some modern equivalent for the husking bee, the quilting bee and the singing schools of the old days. In one way or another the social instincts of our young people must have opportunity for expression, which may take the form of clubs, parties, picnics or other forms of amusement. One thing is certain, and that is that the church cannot take away the dance, the card party and the theatre unless it can offer in its place a satisfying substitute in the form of more pleasing recreation.

Universal Instinct for Play.

In providing for enjoyment the church uses one of the greatest methods by which human society has developed. Association is never secure until it is pleasurable; in play the instinctive aversion of one person for another is overcome and the social mood is fostered. Play is the chief educational agency in rural communities and in the play-day of human childhood social sympathy and social habits are evolved. As individuals come together in social gatherings, their viewpoint is broadened, their ideals are lifted and finally they constitute a cultured and refined society.

It is plain, therefore, that the church which aims at a perfected society must use in a refined and exalted way the essential factors in social evolution and must avail itself of the universal instinct for play. If the church surrounds itself with social functions which appeal to the young among its membership, it will fill a large part of the lamentable gap in rural pleasures and will reap the richest reward by promoting a higher and better type of manhood and womanhood.

A few weeks ago we wrote to the Record-Press that the only good places in the roads between here and Marion, were where they were graveled last fall. At least that's what we intended to write, but it appeared "graded," which is quite different. We believe one graveled is worth about twenty gradings. If we have passable roads the year round, there will have to be something put on the roads that will stay put. We believe we have spent enough money in the last twelve years on the main roads, to turnpike them, but were right back where we were then with bad roads—and so far as we can hear, no one is satisfied with the present method of working them.

For a few minutes Wednesday morning the people of this vicinity thought the European war had been shifted to our midst, but upon investigation revealed that disturbance was only Harrison Thompson and Martin Sutton rounding out the career of a mad-dog that had wandered down here from Caldwell county.

We are informed that Hamp Fox is spending a few days in Missouri.

M. V. Sutton lost his splendid family horse last week with blind staggers.
